## AVG ANTI-VIRUS PROFESSIONAL EDITION VERSUS AVG ANTI-VIRUS FREE EDITION COMPARISON

AVG Anti-Virus Free is available to home users for personal and non-commercial use on one computer. Use of AVG Anti-Virus Free within any organization (including non-profit organizations), or for commercial purposes is strictly prohibited! AVG Anti-Virus Free is absolutely not for use with any type of OEM bundling with SW, HW components or any service.

AVG Anti-Virus Free uses the same detection methods as AVG Anti-Virus Professional Edition. However, AVG Anti-Virus Free does not offer the full set of features available in AVG commercial products. In addition to the licensing limitations, there are several key performance differences that can impact the level of security on AVG Anti-Virus Free users' computer.
